You are invited to Homecoming, 2011
October 7-8, 2011

Families are invited to campus at any time and programs are organized throughout the year by many of the living units, athletic teams, and other student organizations that are geared toward families and specific events where these groups will invite families to campus. The university, though a variety of media, will increase contact with parents/families and assist in the promotion of these events.

Missouri S&T’s web portal www.mst.edu is the gateway for all programming and information about the university. The university also communicates with its constituents through a variety of social media, such as Facebook and Twitter. Missouri S&T’s presence on the Internet continues to evolve and grow and is one of the primary sources of information for anyone interested in the happenings on campus.
